

Yes, we're

## FRANK-LEE SPEAKING

(Frank Wind – Dee Lee Wind)

One plus one equals three?  
When you hire Frank-Lee Speaking  
you get 3 storytelling styles.

Dee Lee Wind, has been a professional storyteller for more than 35 years. Her expressive arts training, as well as her background in drama, speech and theatre, add warmth, sensitivity and a dramatic flair to her storytelling. She has been praised for teaching children the skills and helping them find the courage needed to perform before a group or audience.

Frank Wind became a storyteller after retiring from his position as a research scientist for a major oil company. His presentation skills are the culmination of more than 25 years of telling “stories” to management and to peers at professional conferences. He brings a fresh perspective to many of the old standards and is constantly writing new material to expand Frank-Lee Speaking’s already extensive repertoire of solo and tandem traditional folk tales and original stories.

Together, they have been privileged to perform at festivals and concerts in Great Britain and Europe.

When Dee and Frank have worked with senior citizens and for mental health organizations, they have been applauded for their ability to hold their attention, educate and captivate their audience.

They perform storytelling concerts and storytelling workshops for children, family audiences and adults. They are members of the Story Circle of the Capital District.
